

PRIVACY POLICY

What does GAG do with my data?

Not a lot actually. Lets start with what data we ask from you and how its used:

- Name, last name - When entering GAG we need to cross check your name on the ticket with the name on your ID card.
- Email - We need to send you the tickets and possible promotional codes or discounts for attending GAG. Think a unique code to get a discount.
- Date of birth - We need to know if your over the age of 18. Anyone who is under the age is not allowed to drink.

Does GAG share my data outside the aforementioned points?

No. Lets make that very clear. Even in partnerships as mentioned at the email section above we will not share your data. The only thing you might receive is the occasional email from us, no one else. Your data is not being shared outside the GAG borders.
